

Verificação dos Parâmetros

width = W
height = H
generations = g
timeGenerations = s
populationInicial = p
countNeighbours = 0
board = [width][height]

populationInicial = split("#", populationInicial)

INICIO

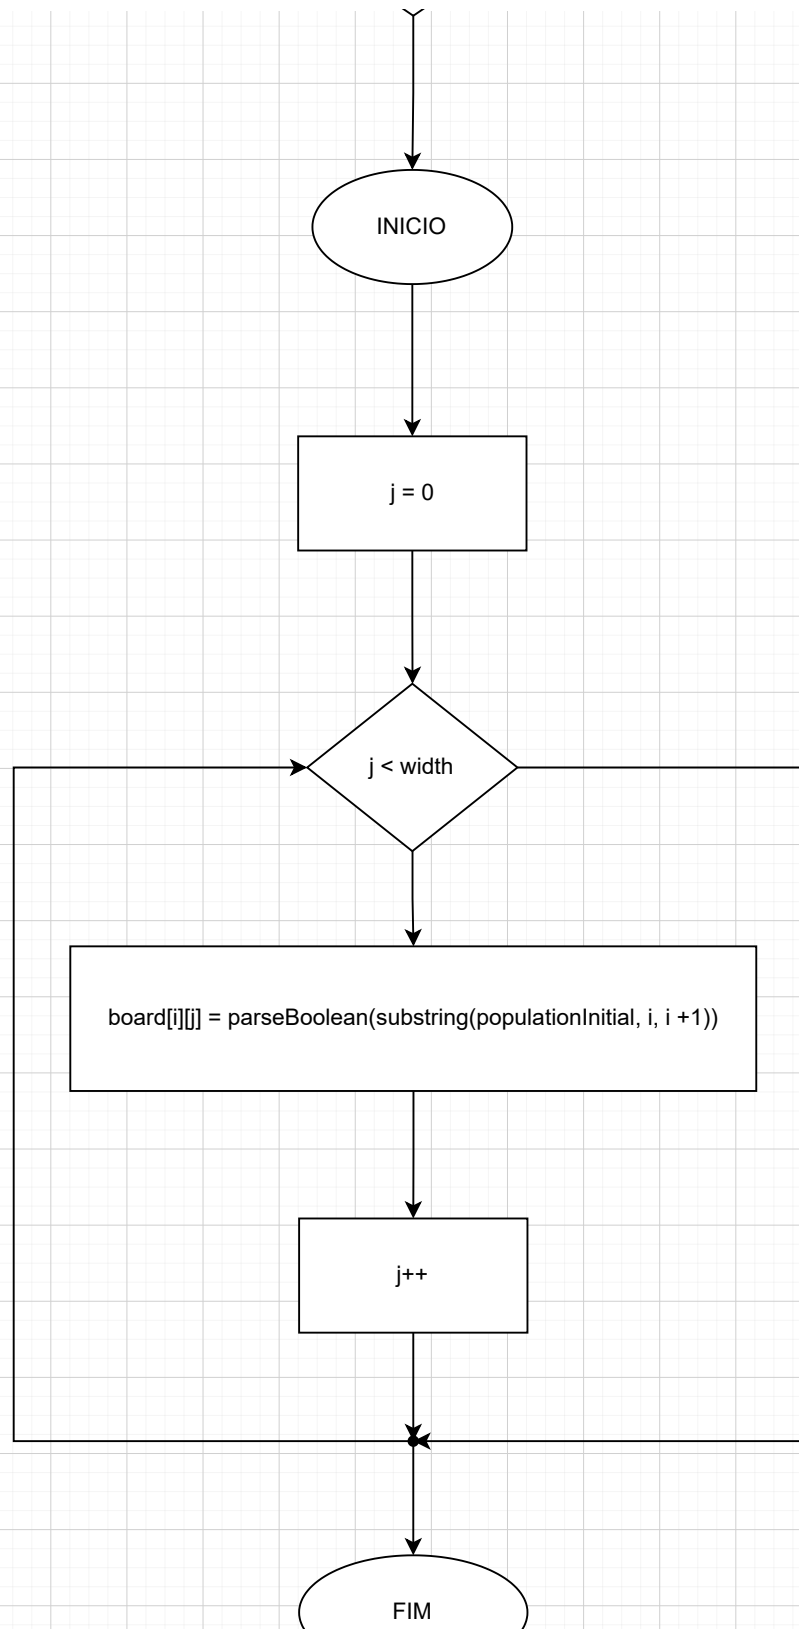

i = 0

i < height

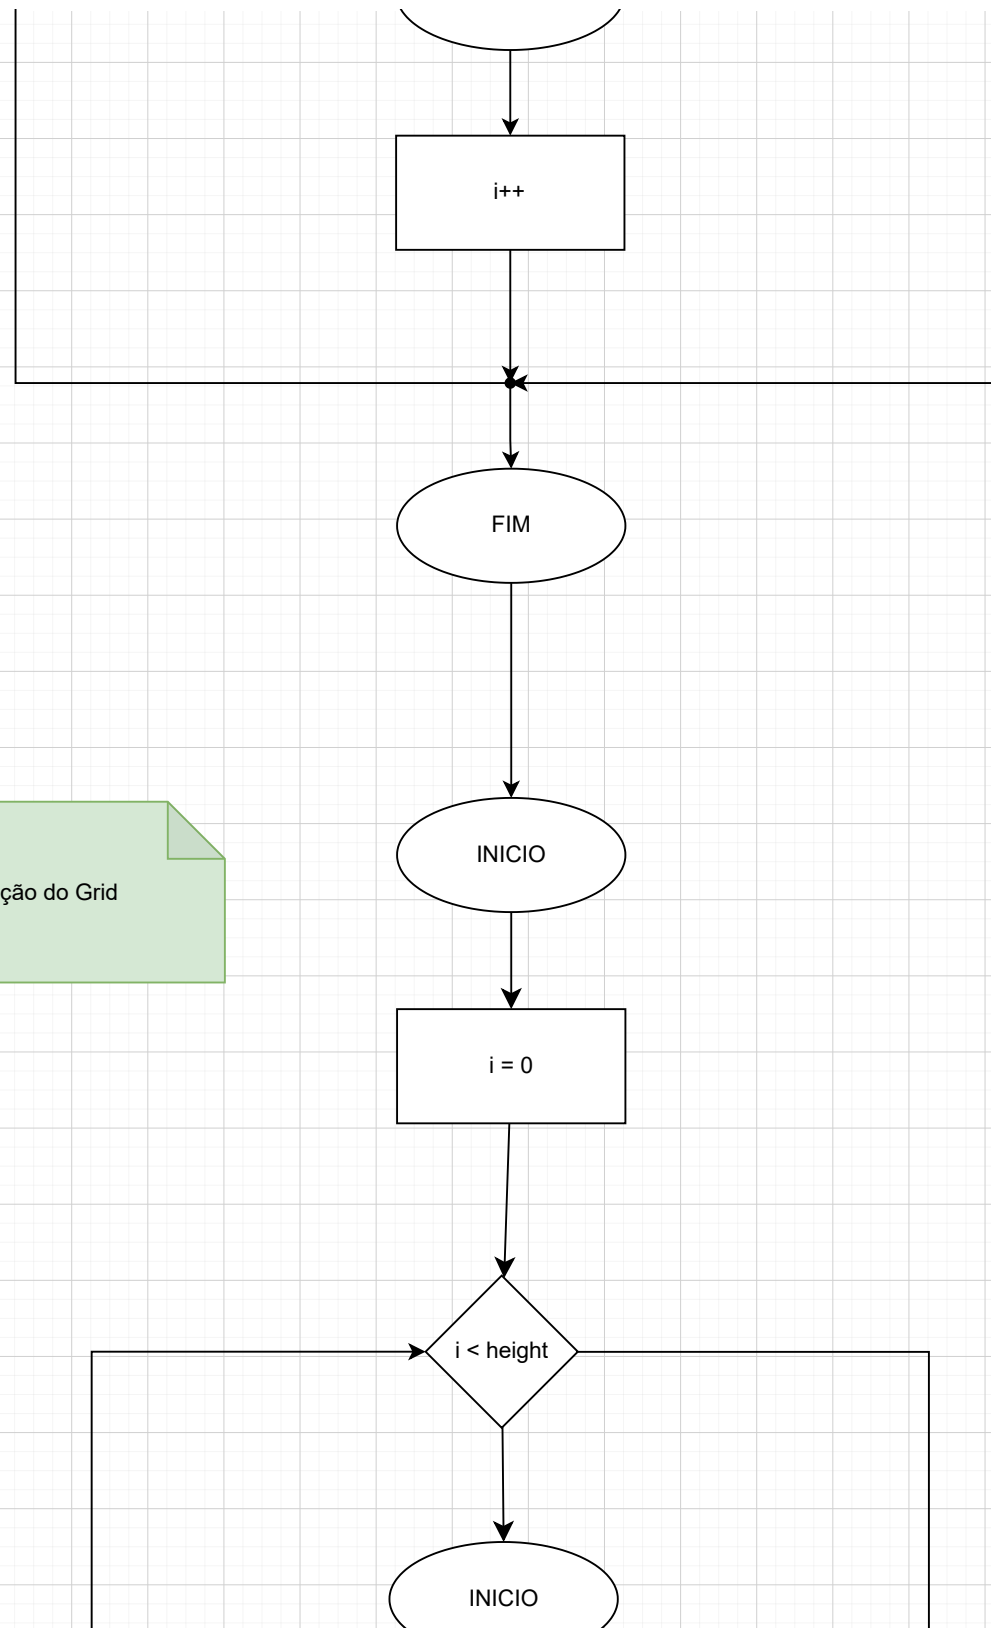

Pegar a celula da string e converter
ela em um item para a matriz

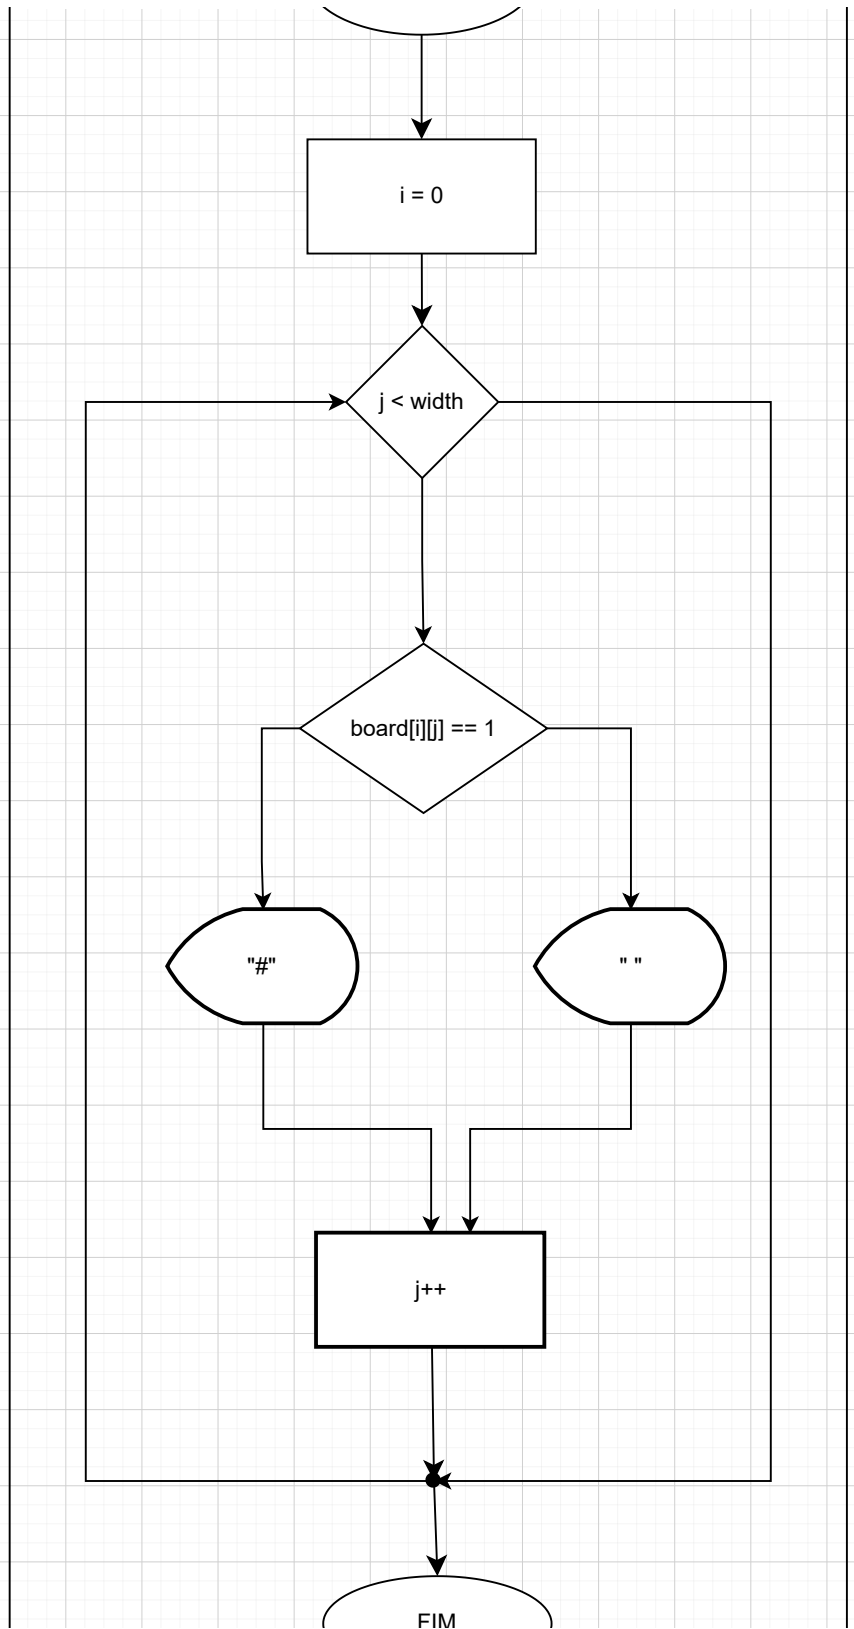

p = "1#1#1"

```
[  
  [ 1, 0, 0 ]  
  [ 1, 0, 0 ]  
  [ 1, 0, 0 ]  
]
```
